SUPERINTENDENT'S REPORT

To the School Board and Citizens of Fremont:

I am privileged herewith to present my fifth annual report as Superintendent of Schools. A group of questions recently submitted to parents and citizens with regard to what they would like to know about their schools showed they were most interested in these topics: Pupils Progress and Achievement, Methods of Instruction, Health, Courses of Study, and Extra-Curricular Activities. These will therefore constitute the basis of my report.

PUPIL PROGRESS AND ACHIEVEMENT

Probably we can best illustrate this progress by summarizing the results of the tests given last May to the pupils of Grades 4 to 8. The 8th grade was tested separately with a test called Standard Graduation Examination. The other grades were tested together with the Otis Classification Test. The results of the two groups follows:

8th Grade			
Highest Score	Median Score	Median of Union	
		No. 14	
187	148	130	
No. of pupils	—	No. above Union Median	
8		4	
Grades 4 to 7			
Grade	No. of pupils	Median score of	No. above
		Un. No. 14	Un. Med.
4	13	48	6
5	9	67	5
6	13	89.5	5
7	7	99	3

These results are not entirely satisfactory. Normally we would expect one half of the pupils to score above the median and one half below. The median score of the Union in each case indicates that that pupil was well advanced in his grade in comparison with hundreds of others all over the country. The 8th grade and the 5th grade of last May were able to equal or better this standard while the others fell below. Not being satisfied with this show of educational progress, we have endeavored this year to demand a little higher standard of daily achievement. Our hope is to show better progress during the next period.

METHODS AND COURSE OF STUDY

Like every activity of the modern world, the course of study and methods to meet it have changed. A large group of material in one field or another has become of no value today because of the replacement of these items by a bit of modern machinery. The real justification for any course on the program is social utility. "If the younger generation is to achieve participation in our social life, the emphasis in curriculum construction and in teaching must be placed on social outlook, on reflective consideration of what constitutes a good life in the social order." Our aim is just this. Its realization is the joint responsibility of home, school, and church. Our course of study calls for emphasis on the utility of the subject to the community.

I cannot explain here every change that has taken place but invite your attention to the new Program of Studies placed in your schools last year. The outline of studies and suggestion for their expansion in learning represent the last word in curriculum building. It is designed to meet a changed world with up-to-date material. I am sure the teachers will welcome your inspection of their copies.

HEALTH

The School Nurse's Report embodied in Table VII which follows shows you exactly the condition of the health of the children and the correction she was able to obtain. Your own individual cases were reported to you personally and your cooperation in correction has been commendable. I hope we may continue working for that common goal for every child: A sound mind in a sound body.

EXTRA-CURRICULA ACTIVITIES

These activities which take place outside of the regular school subjects and which are extremely important and valuable have not been over emphasized. In the main each school has held its own Hallowe'en and Christmas parties and its Education Week Program. Each school has provided a portion of a program for the Grange and has done its bit toward graduation. The first three of these programs pass without comment but a word is due to the last. For the past two years, a simple graduation program for the eighth grade has been adopted. The work of the pupils of all grades has been displayed but the entertaining feature of the former program has been eliminated. The size of succeeding classes may be such that other material may need to be presented but the emphasis will not be entertainment. I am sure you will appreciate and approve the change.

Very respectfully,

HAROLD C. BOWLEY,

Superintendent of Schools.
